

"I checked the propane tank and saw that it was bone dry... Without the sensor alert, we would have had frozen pipes and water damage by Tuesday morning."

— Doug Hanson, Mazeppa United Methodist Church, MN

## Don't let water disrupt your organization ever again

Every year, thousands of Church Mutual Insurance Company, S.I. (a stock insurer)<sup>1</sup> customers experience damage and disruption from water due to weather or mechanical failures. The CM Sensor® program can provide peace of mind and help prevent these types of losses.

### EXPERIENCE PEACE OF MIND

Act now to get your 24/7 temperature and water alert sensor system!

- The sensors **ALERT** you via text message or email when cold temperatures or water are detected.
- Installation is **EASY** with simple hand tools; no experience is necessary.
- **NO-COST** monitoring and alerts when you install and activate the sensors.

### SENSOR SAVES

#### DID YOU KNOW?

To date, the sensor program has saved customers millions in damages and repairs!

- One customer is using CM sensors after a sprinkler system malfunctioned and repairs to their building took months to complete. This year an alert will be sent if water is detected so damage can be prevented.
- Another customer avoided damage estimated at \$52,000 and was able to keep their doors open.
- After the last freeze event, eight facilities in various Massachusetts, Wisconsin and South Carolina locations all received temperature alerts in the same week, helping prevent more than \$89,000 in total damages.

To learn more about this **INNOVATIVE** program and how you can better protect your organization, visit [churchmutual.com/sensors](http://churchmutual.com/sensors) today!
